

Pathology User Experience Compliments – Jul 20 to Sep 20

Blood Sciences: Bank Nurse Practitioner from Locala (Service User) stated that our 'blood testing service has been great!

Cellular Pathology: Senior Clinical Teacher @ Medical Education PGH said thank you very much for all Cell Path's hard work and support in relation to facilitation the experience of the First Year medical students!

Blood Sciences: Chief Investigators @ RECOVERY Trial Centre Coordinating Office wrote to thank us for our contribution to the trial at our hospital; it has already produced robust answers to very important questions in the care of patients & the value of these results should not be underestimated and will save thousands of lives.

Pathology: The Research Team thanked Pathology for their support with the setting up and the process of the SIREN Trial.

Pathology: Leeds Health Care (Service User) says a huge thanks for our support with the antibody testing and that it has really been appreciated, as with over 1700 staff members tested it feels like a huge achievement, and would not have been possible without the support of the Pathology team.

Phlebotomy: Nurse Practitioner expressed appreciation for support given with the social care antibody testing facility, it gave her the confidence needed. Also, she admired Dylan D for his skills as a teacher; he provided positive reassurance in his teachings and they worked well as a mutually supportive team. A big thank you for all the support.

Pathology Management: Locala (Service User) wrote to say thank you for all the support that WW gave to their Antibody Testing Team; the team received a standing ovation award and during the presentation WW was mentioned for his 'superb support'.

Blood Transfusion: MO received a TRUST communication acknowledging the work of the BT lab in its involvement with the RECOVERY Convalescent Plasma trial.
